## Earth: The Beginning

Welcome to Earth. This is the planet you live on and how it is known today. She is part of the solar system and inhabited by humans and animals. Please allow me to share a brief summary of her history with you, so that you are aware of the journey she has made. This document will give all the relevant information to start exploring your own origin. It is in no way complete but will provide important pointers that you can use in the search for your own origin.

We start our (his)story in a different part of the Universe where there was a planet called Lemuria. This planet was in perfect balance with its inhabitants, the Lemurians. Every Lemurian was connected to each other and in deep connection with their home planet Lemuria.

According to the Lemurian history, the balance was interrupted by invaders causing a war. This war ended with the explosion of planet Lemuria. Lemuria exploded in pieces and a big part traveled through the universe. The Lemurians followed it while it cooled down and became denser and more solid. It ended up in the milky way in an orbit around one single star (our sun).

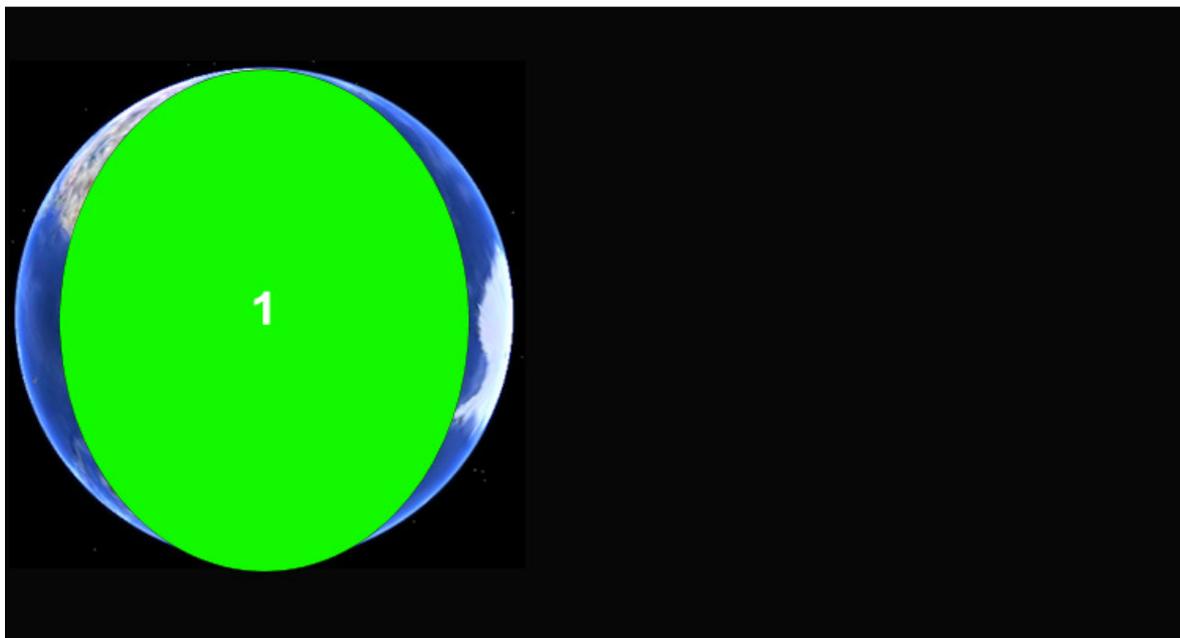

The original connecting energy was still present on this remainder of Lemuria, which allowed the Lemurians to inhabit it. The Lemurians felt out of balance, knowing that big parts of Lemuria were still somewhere in the Universe. They wanted to rejoin themselves with their lost brothers and sisters. They longed to the earlier days of Lemuria.

## Earth-Chakray 1: The Lemurians

When the first two Lemurians (Atom and Eve) inhabited Earth it felt as if they were stranded on this cold surface which felt nothing like home. They remembered their time on Lemuria as beings in perfect balance with their planet, whilst now there was no contact with this planet at all. Earth didn't feel the same as Lemuria was, before it exploded.

Atom and Eve started to learn a lot about this new place in the galaxy and more Lemurians started to inhabit Earth. Since Lemuria is the home of the hearth chakra, Earth was shaped with the same energy as the former planet Lemuria (also referred as Eden or Mu).

The Lemurians reinstated their former connections with each other and the planet, causing the Earth's chakra to grow and attach itself to all the Lemurians. A perfect balance between the planet and the Lemurians was re-instated:

Although the Lemurians were in full contact with Earth they didn't feel complete. A big part of Lemuria was still lost during the explosion and the connection with their brothers and sisters was still gone. They felt alone in this part of the Universe and they wanted to rejoin Earth with the other parts of Lemuria and its people.

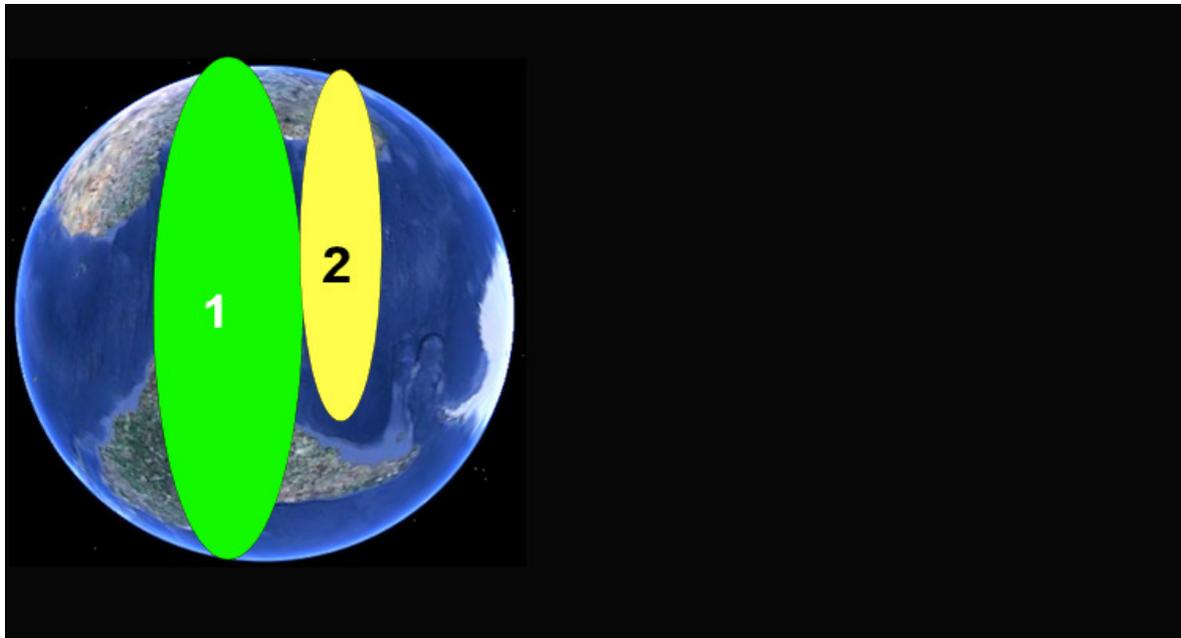

The search for survivors of the explosion of Lemuria, started. The earth opened itself by creating portals that allows cosmic rays to connect to. These portals are the Earth chakra's. The Earth magnetic field is used by pointing the north and south pole towards several galaxies. The magnetic field acts as an antenna that attracts cosmic rays in the hope to find an original Lemurian ray.

## Earth-Chakray 2: The Nephilim

When Earth made first contact with an external ray, it connected to a race known as Nephilim (or Anunnaki) from the planet Nibiru. This ray is different than the Lemurian Earth-Chakray 1 (the Heart Chakra) and is the source of Chakray 2, Solar Plexus Chakra (3<sup>rd</sup> Hindu chakra).

The first Nephilim that came in contact with the Lemurians, was Lucifer. For the first time in his live, he came in contact with Love (chakra 4). Eve at that same time came in contact with power and matter (chakra 3) and they started to interact with each other. Eve liked the new energy that had arrived and she started to focus her energy on the Nephilim. Her strong connection with Earth and the other Lemurians weakened, causing the earth to disbalance. Duality was introduced to the Earth.

The Earth was changed, reshaped and reformed as the Nephilim explored their chakra (Solar Plexus) on this new world. Structures were created and individuality was introduced worldwide, as more Nephilim incarnated on the Earth.

Conflict came on Earth as more Nephilim explored Chakray 1. The Lemurians that felt alone, were seduced by the Nephilim exploring Love. But unbalanced love created jealousy and power struggles among the new Earth's population.

The Lemurians also started to explore the powers of Chakray 2 by experiment with this new energy. This was not liked by the Nephilim as they liked to keep their powers to themselves. It was not long when the Nephilim wanted to take over the Earth by removing the Lemurians totally.

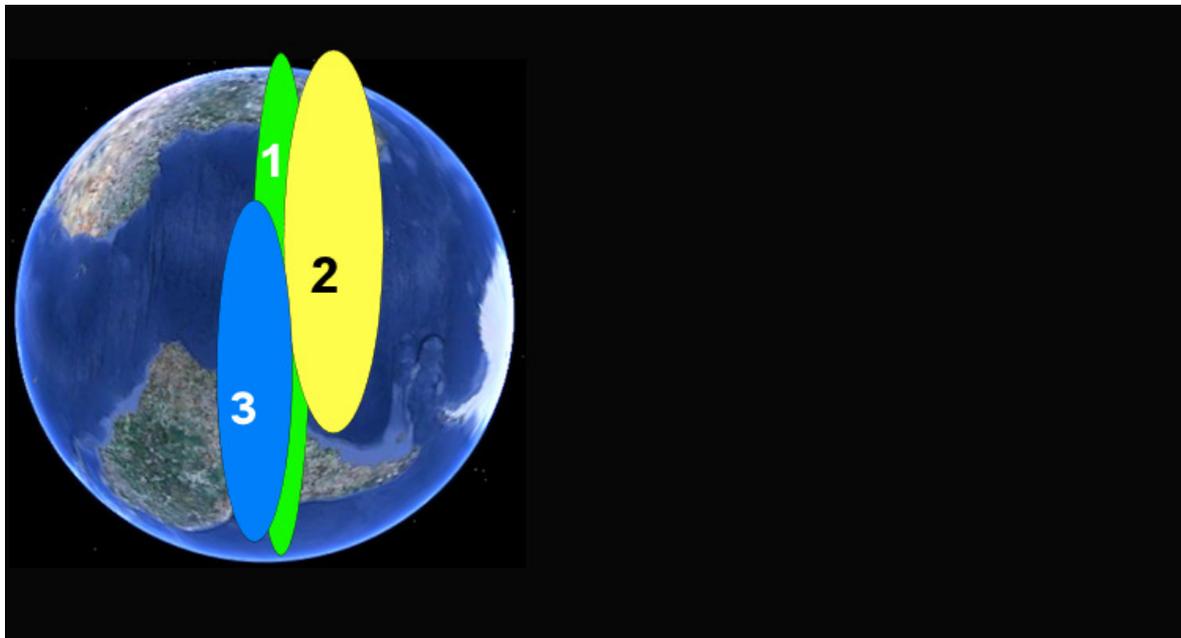

## Earth-Chakray 3: The Angels

The continuously war between the Nephilim and the Lemurians almost caused the Lemurians to extinct. But the earth was still in search for different galaxies, so the south pole connected with a planet called Nippur. This planet is the source of the Throat Chakra (5<sup>th</sup> Hindu chakra).

The 3<sup>rd</sup> Earth-Chakray made a connection to the home of the Angels. The first Angel that traveled to earth was an angel called Michael. He connected first with Atom, learning the lessons of Earth-Chakray 1. The lessons of love and connections were learned and Michael understood the search of the Lemurians for their lost people.

The Lemurians came in contact with Chakray 3, and they too started to learn the lessons of expressing and having a voice. For the first time, the Lemurians had a voice to express how badly they were hurt by the Nephilim that were taking over the world.

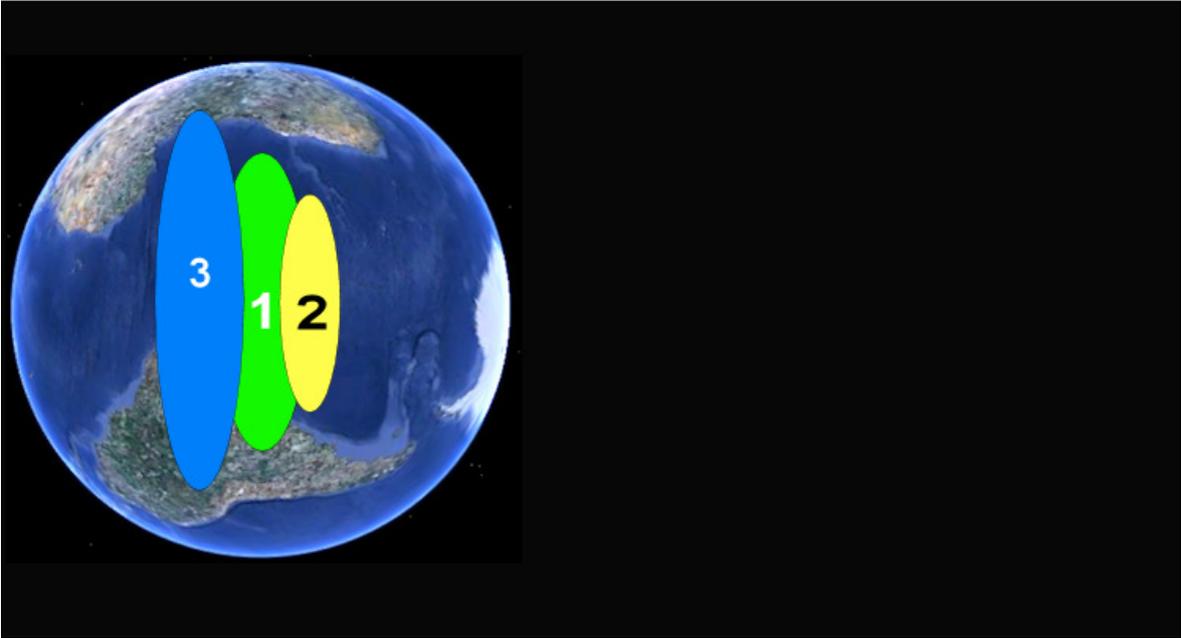

More Angels started to incarnate on Earth and it didn't took long until the Angels and Nephilim made first contact.

The Angels and Nephilim seemed to be very alike, although they are complete opposites of each other. This was the introduction of black & white / good & evil onto Earth. The Angels also wanted to learn the powers of Chakray 2 and they started to explore it. This was not liked by the Nephilim and the Lemurians that had joined them, which caused a war.

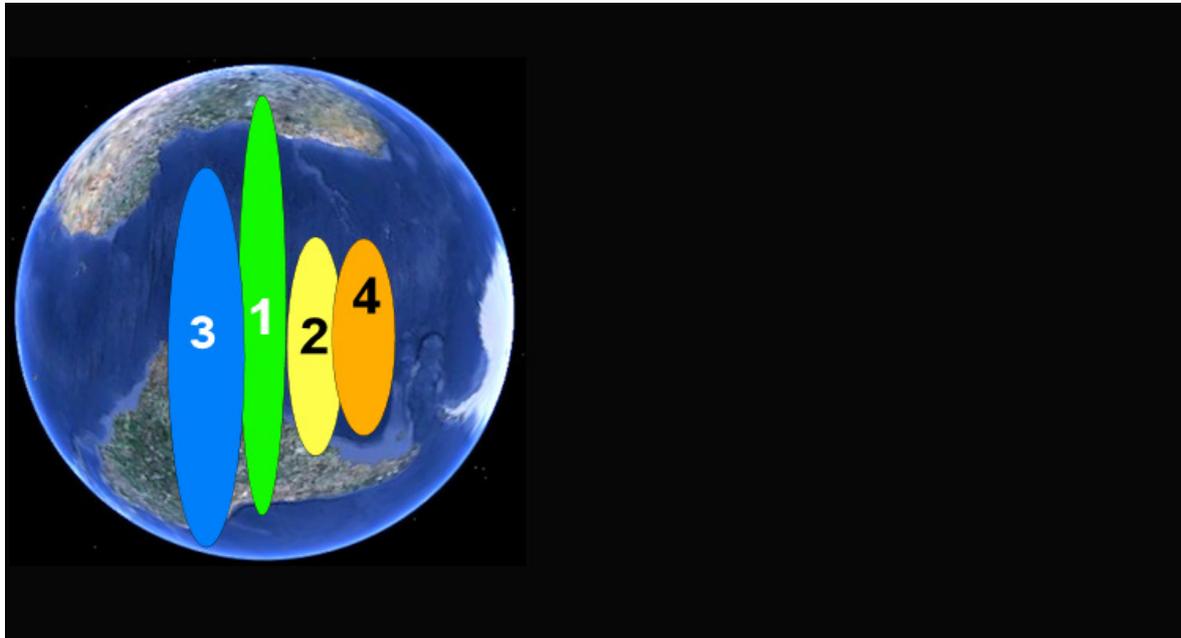

*Revelation 12:7-9: <sup>7</sup> Then war broke out in heaven. Michael and his angels fought against the dragon, and the dragon and his angels fought back. <sup>8</sup> But he was not strong enough, and they lost their place in heaven. <sup>9</sup> The great dragon was hurled down—that ancient serpent called the devil, or Satan, who leads the whole world astray. He was hurled to the earth, and his angels with him.*

The Angels restored the balance on Earth and took away the power of the Nephilim. They instated the Lemurians as peace keeper of the world whilst the Nephilim were restricted to stay on a limited space on Earth.

## Earth-Chakray 4: Reptoids and the beginning of Atlantis

The search for Lemuria continued and Earth-Chakray 4 made its connection with the planet Draconis. This planet is the source of the Sacral Chakra (2<sup>nd</sup> Hindu chakra). The Reptoids incarnated on Earth and came in contact with the Nephilim. Since Reptoids are the masters of the feelings they are able to manipulate them as well. The Reptoids brought a lot of new feelings into this world, unknown by the Nephilim. Sex, Fun, Hate, etc. were such feelings that were shared with the Nephilim.

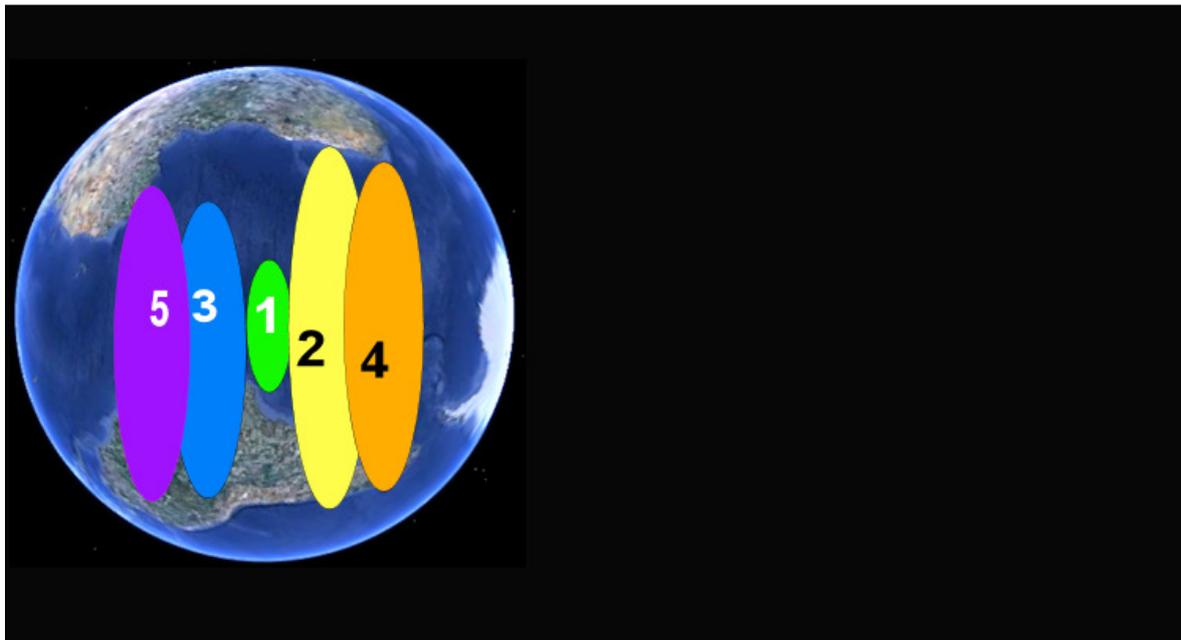

The Nephilim had the power to shape matter in any kind they wanted, which was very liked by the Reptoids. They created a place which made it possible to experiment with these new energies and called it Atlantis. A lot of power came from combining feelings with matter so devices were created on Atlantis to experiment with these feelings.

The Reptoids discovered the dark side of feelings when they combined them with the Nephilim knowledge. For the first time on Earth, fear was felt. The Nephilim and Reptoid alliance experimented on the Lemurians to explore the dark side of feelings. A lot of Lemurians were destroyed in that process or had to flee to the Angelic alliance. This reduced the Lemurian race to near extinction for the second time.

## Earth-Chakray 5: Pleiadians

The Nephilim and Reptoids alliance became very dominant and they started to attack the Angels in order to take over the Earth. Atlantis became a weapon developing place that prepared a weapon that could close and manipulate specific Earth-Chakrays. Their goal was to remove the Lemurians and Angels by breaking their connection to Earth.

They started to experiment with the Earth Chakrays, causing its 5<sup>th</sup> Chakray to connect to the planet Erra (near the star Taygeta). From this ray, the Pleiadians set their first steps on Earth. The Pleiadians are the source of the Third Eye Chakra (6<sup>th</sup> Hindu chakra). The Pleiadians made first contact with the Angels and they learned how to master their voice.

The Pleiadians were exploring their new found Chakrays and they came in contact with the Reptoids when they visited Atlantis. The Reptoids recognized that their experiment was a success and a new alliance was formed between the Pleiadians and Reptoids. It appeared that the Reptoids and Pleiadians had much more in common so the alliance with the Nephilim was ended.

The thrive of Atlantis started. The Pleiadians and Reptoids started off very successfully but were disagreeing with each other more often. It led to a fundamental disagreement when the ownership of the Earth was discussed. They both wanted to own the Earth and this was the start of the great Atlantean war. It was a very destructive period in which every Chakray reduced in numbers very rapidly.

As a last resort to take over the world, the Reptoids used their Chakray disruption machine again. But it had taken so much damage from the war that it malfunctioned. It disrupted the Earth's magnetic field causing the poles to shift and move around. This had such a huge impact on all the Planets connected to the Earth's Chakrays, that they started to lose their connection with Earth.

Total panic struck the Earth and some beings tried to flee back to their home planet or even home planets of others, using the Earth's Chakray connection points. Not everyone wanted to bring their "enemy" onto their home, so most beings were denied access into the Chakray of others and they were "left dead".

When Earth lost the Chakray connection with the planets, it was no longer possible to incarnate for the beings who went back to their home planet. Each specie reduced in numbers resulting in almost the extinction of all life on Earth.

This period is known as the Ice age, in which Earth was very cold and imprinted a lot of Trauma on those survivors that were able to keep the connection with Earth. They lost their connection with their homes and they had only each other to count on.

## Earth-Chakray 1,2,3,4 & 5: The Alliance

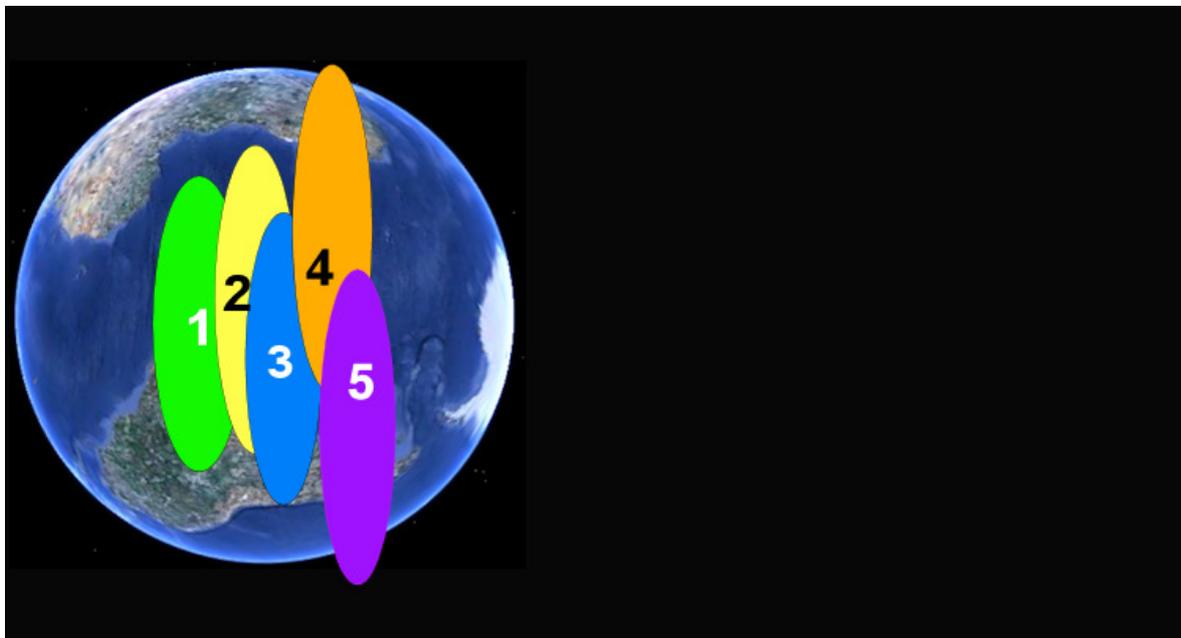

Since the Earth originated from Lemuria and the Lemurian people did not leave the earth, the influence of Chakray 1 became big. The other Chakrays learned in much depth the lessons of Chakray 1, which resulted in a joined effort of all the Rays to reconnect Earth with their own home planets. They now fully understood the pain of the Lemurians by losing their own world and this understanding created the strongest bond between the different Chakrays.

Earth was a planet that only had a few survivors in the search for their own home planet. It was agreed that this experience may never be forgotten and that it should be imprinted in everyone that was there. A contract was imprinted in the last survivors that said that the Earth must be protected and that the search for Lemuria should continue as originally intended.

This was the start of a lot of discoveries that were done during the exploration of the 5 Chakrays by every race. Angels had learned the energy of Chakray 5 (insight), with which they discovered that Angels and Nephilim actually originated from the same source. They are so alike because the Nephilim and Angels home planet has the exact same distance from their origin.

Because of their likeness, it didn't took long when the first twin soul connection was formed between the Nephilim and Angels. This caused the Nephilim to align with the wish to join with their own origin. The Nephilim were from then on known as Fallen Angels so that they would always remember their Angelic origin from God, their father.

The powers of the Chakrays on Earth grow much quicker because of the joined effort even with the limited number of people present. The power of union made them stronger than ever and a balance between the Chakrays and Earth was formed:

## Earth-Chakray 6: The Humans

The Earth's poles were still at drift when a new "planet" connected with Earth. The planet Alcheringa / Tjukurpa was not much developed yet, since it was a gas giant. Earth was still interesting for the humans, because it allowed better development than their own environment. The humans that incarnated are the source of the Base / Root Chakra (1<sup>th</sup> Hindu chakra). A lot of people incarnated and they started the primitive tribes like Indians, Aborigines and Papua's. Those who remember their time on Alcheringa / Tjukurpa still call it the Dreamtime. It was the time before they had physical bodies and still lived in the gas giant.

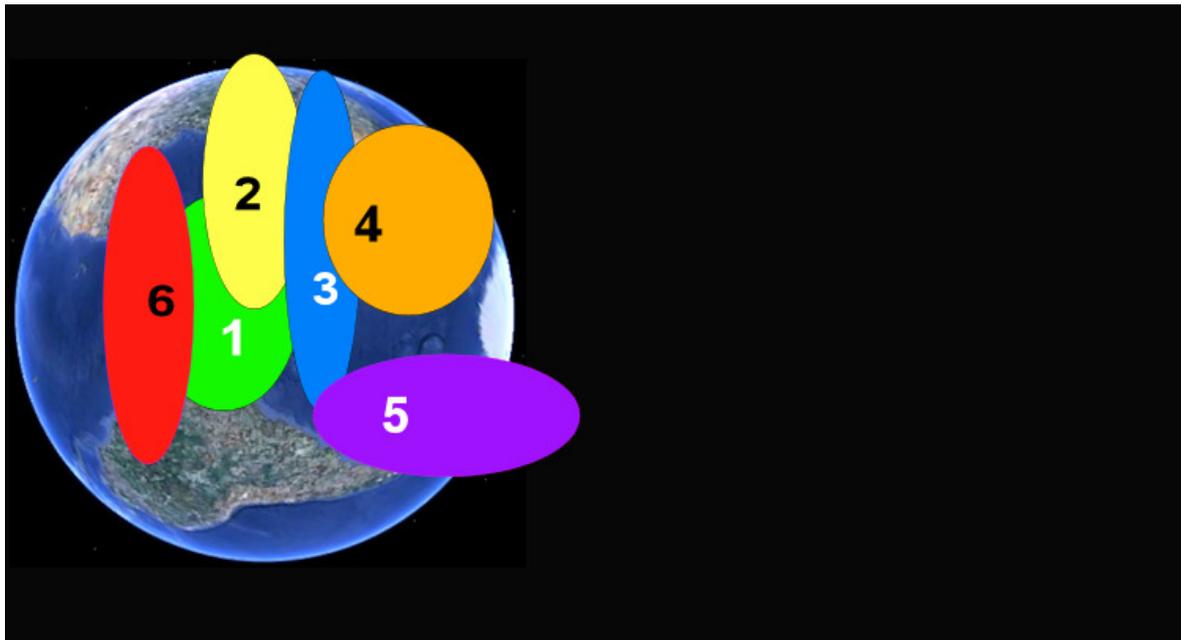

The Humans started to explore the earth and learned about the Earth and its basic elements (Fire, Water, Air and Earth). They were able to learn the Earth in the form it was in, creating a very special band with it. The other Chakrays did not really know what to do with this "limited" specie that had joined, so they decided to let them explore first. They had learned from the past that any interference could cause problems and they didn't wanted to "mess it up".

This went well for a long time and the Humans were able to multiply themselves in huge numbers. The Reptoids became interested in these humans that seemed very fit and able to work hard that they started to exploit them for their own purposes. Contact was made and feelings (Chakray 4) were introduced into the Humans. As manipulative the Reptoids were, the Humans came in contact with sex and started to enjoy it. This made the Humans very perceptive to the Reptoids and were willing to give themselves away to "the gods".

This time the other Chakras were aware of what was going on and the Angels cut off the connection between the Humans and Reptoids. Chakray 1 was introduced to the Humans, learning them the difference between love and sex. A deeper connection started between the Humans and Earth when they came in contact with the true Lemurian Energy. The Humans grow exponentially and the other Chakras refocused their efforts to work on connecting the Chakras with their homes.

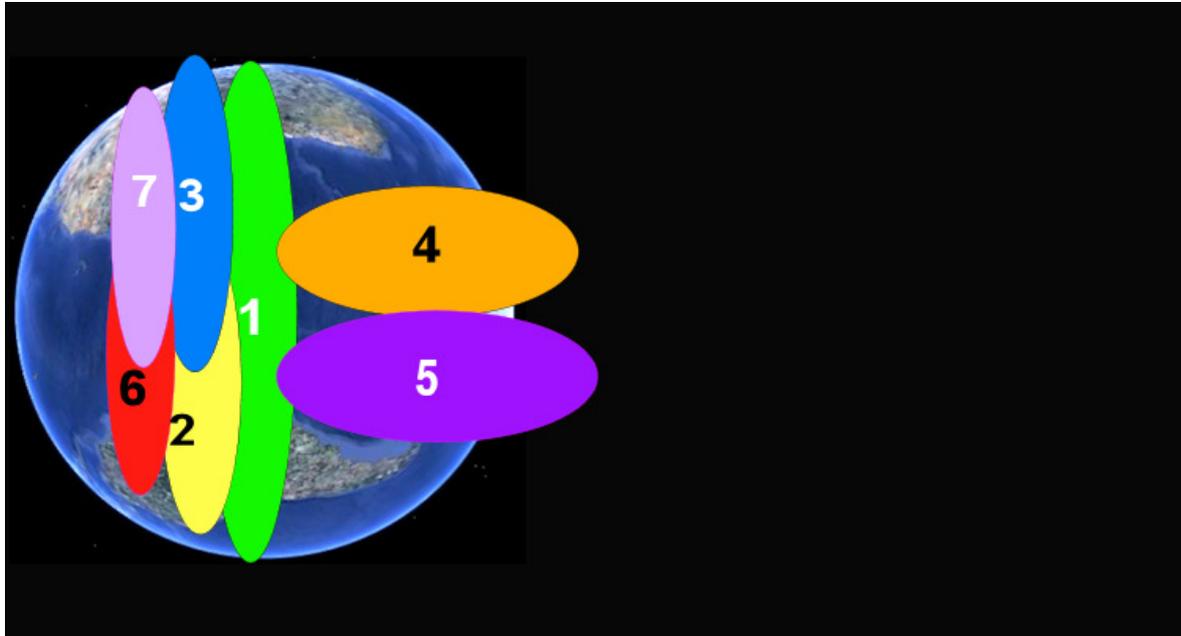

The Reptoids and Pleadians made peace and joined each other in the search for their home and set the first steps of what is now known as the Galactic Federation. They started to point outwards in earth, and pushed the Poles back in its original path. This allowed the Earth to continue its original search for Lemuria.

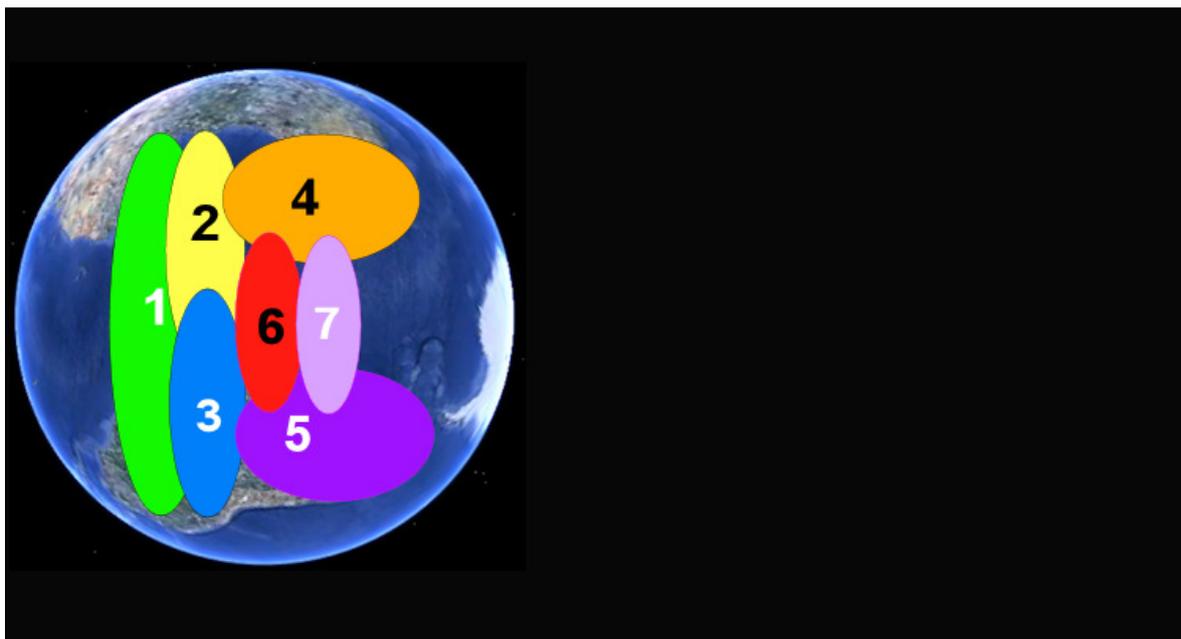

The Humans were growing in numbers and most of them never came in contact with the other Chakras except the Lemurian Chakra that was needed to keep the Humans together in groups. This formed a very strong bond between the Lemurians, Earth and the Humans. The Lemurians learned Chakra 6 in depth during this period, which helped them better in understanding the importance of Earth in a different way. For the humans, Earth became their home.

## Earth-Chakray 7: The Christ's

A new Chakray aligned with a new planet called Kolob which is the home of the Crown Chakra (7<sup>th</sup> Hindu chakra). It is the home of the Christ's by which the first person that incarnated was Jesus Christ. The Christ's started their journey on Earth in direct contact with the Humans and the Angels.

There was a direct understanding between the Angels and the Christ's because they recognized the connection the Christ's had with the God they searched for. An alliance was formed between the Angels and the Christ's to work together for a better Earth. The knowledge about the higher self, from the Christ's brought perspective about everything, so that the other Chakrays focused more on their own lessons. The Christ's energy was adopted between the other Chakrays. A new Earth balance was formed between that reflected an easier way to integrate all the Chakrays on Earth.

The Earth species started to develop Chakra's, using Earth's Chakray system allowing easier transformation between the different rays. This allowed the Earth to develop a lot faster than before. A lot of systems were developed that gave insight in the 7 chakra system and this knowledge became widely used over the world. The development of the Earth increased in rapid speed, with this new transformation system in place.

The Earth people became more uniform then it was in the beginning when it moved back to its original path. It reconnected with the Chakray 2,3,4 and 5 planets, allowing friends, brothers and sisters to reconnected. All the experience and lessons of the other Chakrays were shared with each other. Some decided to leave the planet and never came back (like a lot of the Pleiadians), whilst others actually made the trip back to Earth (like the Angels) and started to live again in connection with the other rays.

It was a very fruitful time in which the Earth alliance spread across the home planets. Federations were formed and it was allowed for some species to visit other home planets by “incarnating” into their form. Earth became a portal to a lot of new planets.

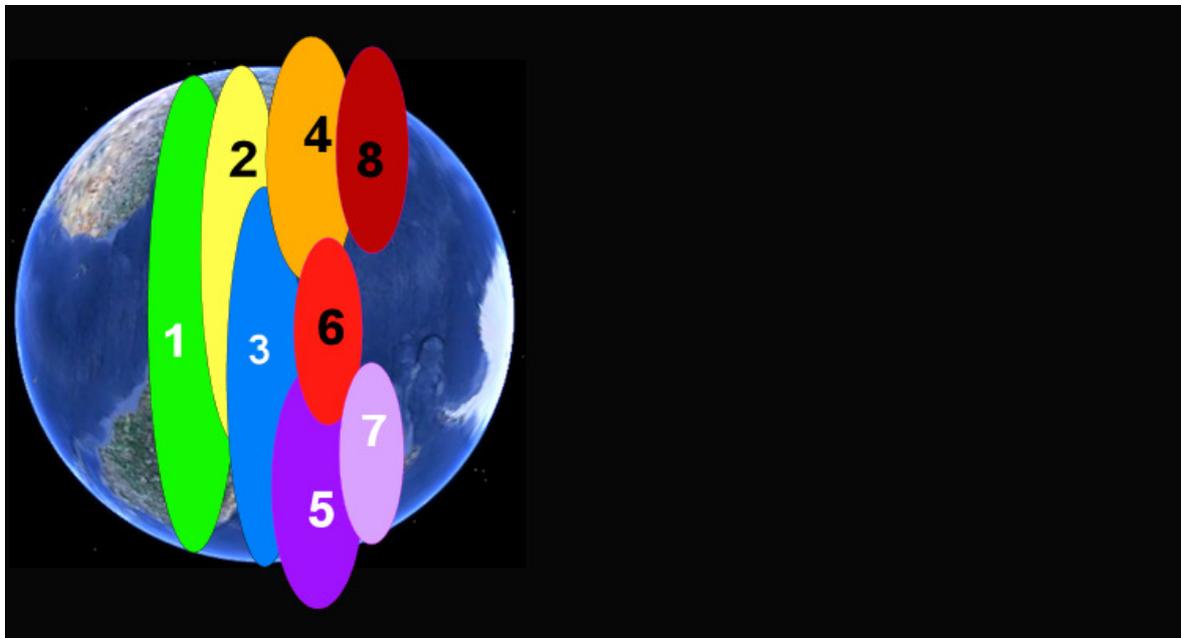

## Earth-Chakray 8: Zetas

Earth continued her search for Lemuria when it connected to a new planet called Zeta Reticuli. The Zetas are the most technologically advanced specie that Earth came in contact with. The Zetas were however a dying race since their only way of reproducing is by using cloning technology. This technology wasn't perfect causing the Zeta's losing important DNA information every time a new Zeta was "born".

When the Zetas connected with the Earth-Chakray they used their technology to explore the new found world. Since the Zetas are a very careful race, they have all the technology available to keep them hidden as much as possible. A period of observation started in which they learned a lot about the Humans. They experimented with Human DNA and tried to implement the Human reproductive system into their own species.

The Zetas were initially not aware that other Chakrays had connected to Earth until their technology came in contact with signals from the Reptoids searching for Lemuria. These signals could not originate from the very "limited" humans so they started to explore this new Reptoid ray. They discovered that the Earth was able to receive beings from other rays by incarnating them into human bodies.

The first Zetas incarnated into physical bodies and started to explore the Earth in a new way. They learned much faster with a physical body, so more and more Zetas came to Earth. The knowledge of technology was brought onto Earth with the goal of making her compatible with Zeta Reticuli. Their influence and impact on Earth grew, causing the Reptoids to notice the Zetas.

First contact was made between the Zetas and Reptoids in which for the first time in their lives, the Zetas were able to explore emotions. The Zetas didn't like they had no control over these new emotions so they experimented with technology. Medicine and drugs were invented to manipulate them.

The Reptoids explained the purpose of Earth to the Zetas and they came to an agreement about the rules that the Zetas should respect in order to be welcome on Earth. But since the Zetas were new on Earth and had not experienced the near destruction of Earth, they didn't really respect the other Chakras.

They started to develop technology for controlling and exploring the Chakras. Many inventions were done. The technology that had big impact on this world and is connected to the different rays, are as followed:

- **Ray 1 (Heart):** The Phone, The Internet, Social Networking.
- **Ray 2 (Solar Plexus):** Money, Electronic money, Democracy.
- **Ray 3 (Throat):** Gramophone, Radio, Television.
- **Ray 4 (Sacral):** Chemical Drugs / Medicine, Birth control pills, Viagra.
- **Ray 5 (3<sup>rd</sup> eye):** Radar, ECG (EKG), XTC (MDMA).
- **Ray 6 (Base):** Weather prediction, Sky Scrapers, Construction techniques.
- **Ray 7 (Crown):** Electricity, EMF Meter, Space Satellites / Telescopes.
- **Ray 8 (-1\*):** Genetic manipulation, Micro chips, Computers.

The Zetas are still experimenting with the different Chakras but became more and more aware of the importance of rejoining Earth with Lemuria. Technology is more and more adapted to preserve the Earth, or at least reduce the impact on Earth's eco system.

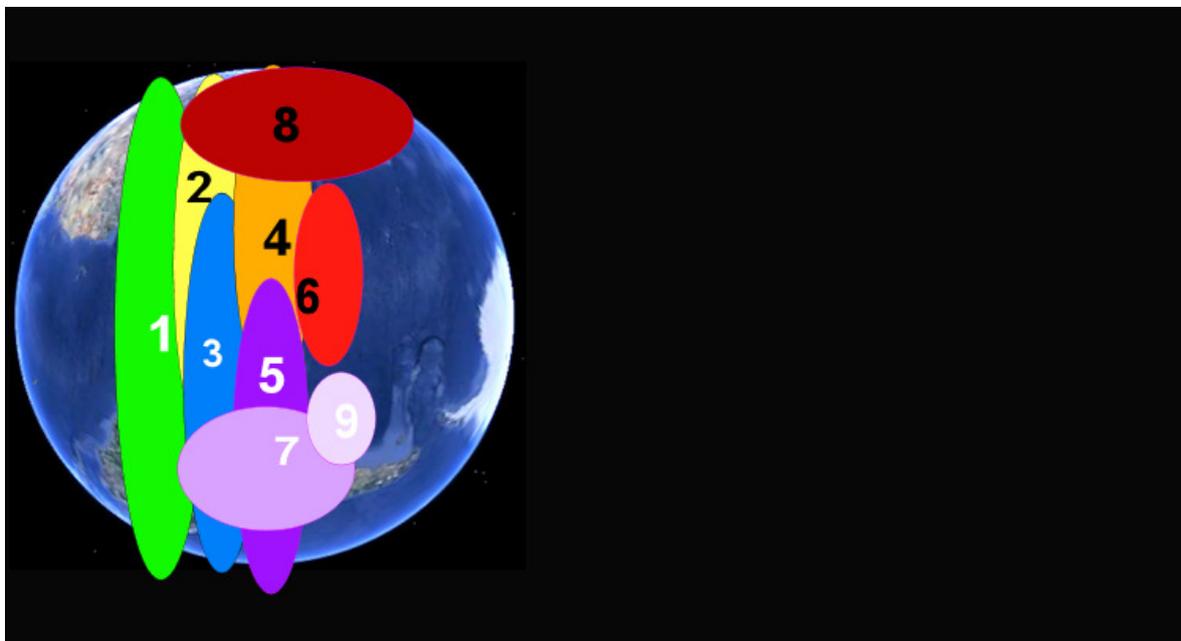

\*Note that Ray 8 is not connected to a Chakra. If it was connected, it would be located below the base chakra.

## Earth-Chakray 9: Arcturians

Earth was still in search when a new planet aligned with Earth. The planet Arcturus connected with Earth allowing the Arcturians to incarnate. They are a very advanced specie that have great knowledge about this universe. They recognize the importance of Earth because it provides an important doorway to different parts of the universe to which the Arcturians have no access to.

The Arcturians that incarnated are most commonly known as star/rainbow children and teach the lessons about having a collective consciousness while regaining their individuality. This is different than the Lemurians, who lose their individuality when they join with other Lemurians to create a collective consciousness.

First contact was made with Chakray 7, which gave them in-depth knowledge about their higher selves. People were able to come in contact with their souls without declaring it divine or Godly. Souls became aware of their collective and individual nature, causing them part from the masses.

Individuality while having a collective consciousness was experienced by the other Chakras. In short these are the most important developments per ray:

- **Ray 1 (Heart):** Making connections is the strength of the Lemurians, but they also create a symbiotic relationship when they connect. Chakray 9, learns them how to connect in such a way that individuality is preserved when it would harm the collective consciousness. There is a balance between individuality and the collective consciousness.
- **Ray 2 (Solar Plexus):** The awareness of how power systems like, communism, money or religion, control the masses, is learned allowing the collapse of those systems. This is still an ongoing process, but more and more cracks are found in those systems that don't care about the individuals that are "in" them.
- **Ray 3 (Throat):** The voice of the individuals are now heard by the masses, causing some world changing event. Like governments collapsing or alliances between people that have

been enemies for ages. Influence of social media, music and videos are felt all over the world.

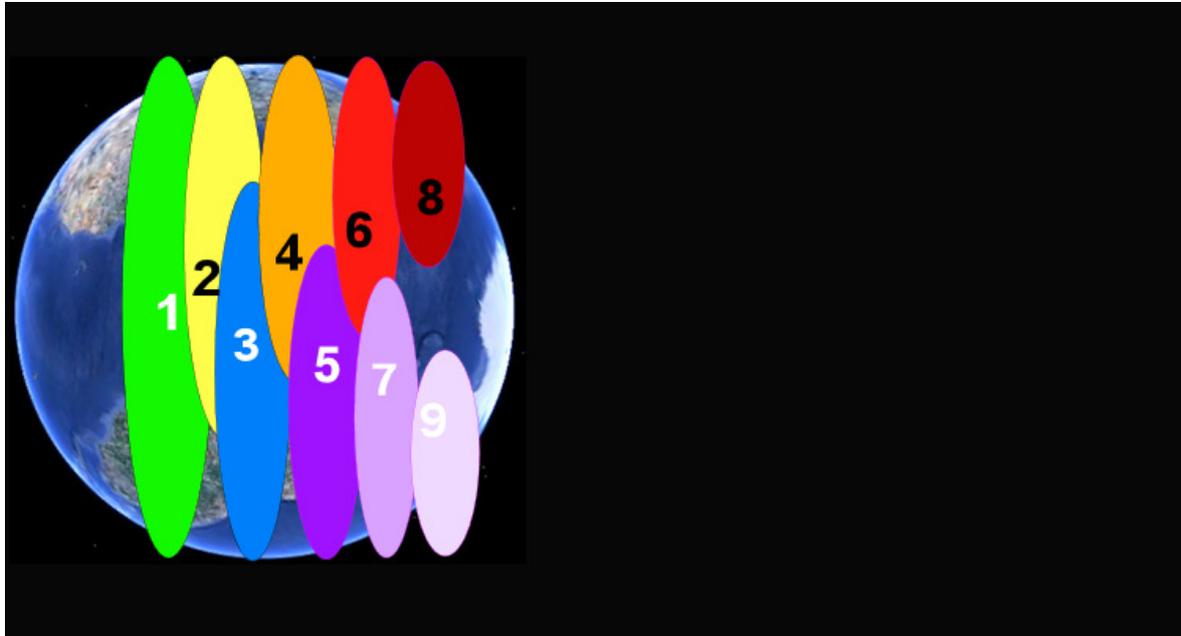

- **Ray 4 (Sacral):** Experiencing how feelings are equal amongst others, but still different per person, is learned within Chakray 4. Making a connection that is no longer sex based, is another important lesson learned within Chakray 4.
- **Ray 5 (3<sup>rd</sup> eye):** Development / extension of spiritual therapy, energetic healing & regression therapy is developed that allows getting in contact with the soul but keep the individuality intact.
- **Ray 6 (Base):** Awareness of the fragility of Earth, and the connection with it, is taught. Also the importance of security, the basic elements of live and being part of a global community is learned.
- **Ray 7 (Crown):** Recognizing your own soul from within the collective origin, allowing individuality to exist inside the collective.
- **Ray 8 (-1\*):** Gene modification is refined, which allows more advance species to incarnate on this Earth, allowing more new rays to incarnate onto Earth.
- **Ray 9 (8\*\*):** Insight in the cosmic rays and the importance of bringing them in balance with each other is learned.

\*Note that Ray 8 is not connected to a Chakra. If it was connected, it would be located below the base chakra.

\*\* Ray 9 is also not connected to a Chakra. If it was connected, it would be located above the crown chakra.

## Earth-Chakray 9: Getting in balance

All the lessons are learned by the Chakrays in a very high pace, causing an enormous evolution of consciousness on this planet. Although we are not there yet, there is a goal set out to follow. The goal is to get all the Chakrays in balance and aligned according to the following picture:

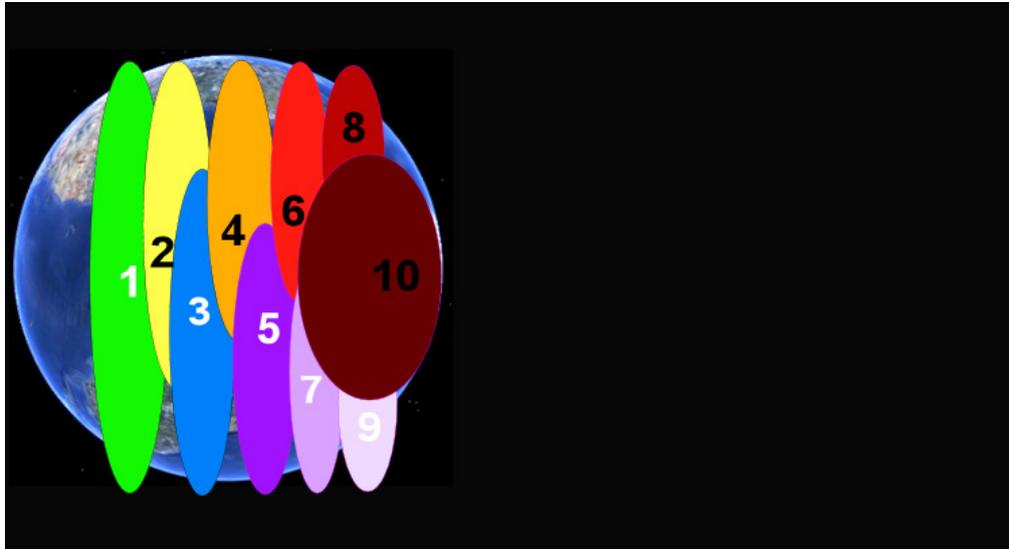

As you can see, all the Chakrays have aligned in a structure that provides a clear foundation for all the Chakrays to be in balance on Earth. The influence is evened out and it is no longer needed to dominate one ray upon the other. A clear understanding about the next phase of evolution is spread and all the rays have prepared themselves for the Future.

Please be aware that we are not there yet! The time Earth has to reach the above balance ends at the 21<sup>st</sup> of December 2012. This means that still a lot of work has to be done in order to be ready for a new connection without the devastating results we have witnessed in the past. Share this information to whom it may concern and help the world getting in balance. This is the time to act and get in peace. Do you have the courage to forgive the rays that have hurt you the most, in the past?

## Earth-Chakray 10: The unknown 1

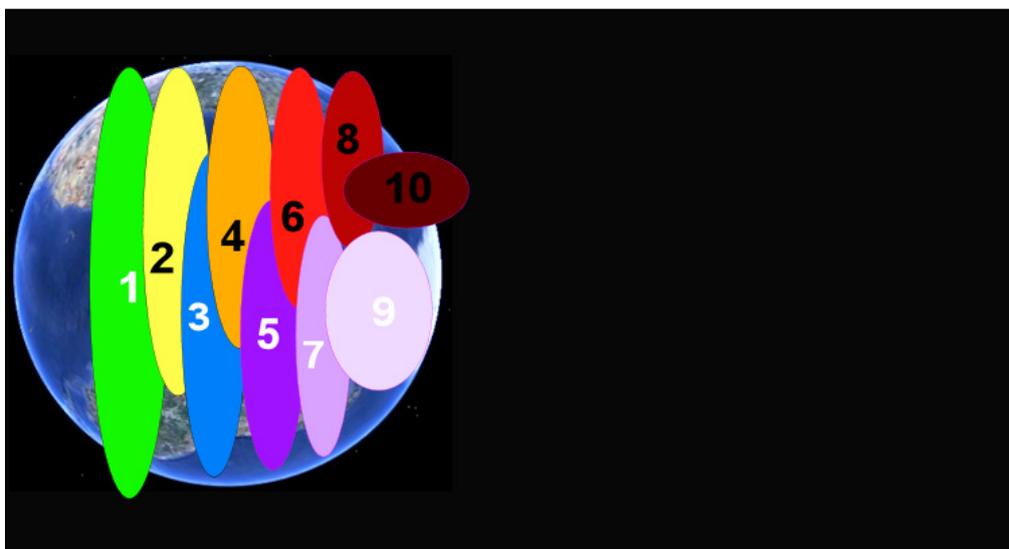

According to the common predictions, Chakray 10 will connect to Earth at 21<sup>st</sup> of December 2012. Assuming that a full Chakray balance is reached, the impact of Chakray 10 can be reduced by all the other Chakrays, when it connects as shown below:

How things progress from this point in time, is unknown so the next pages will give a possible outcome. This text assumes that a full balance is reached.

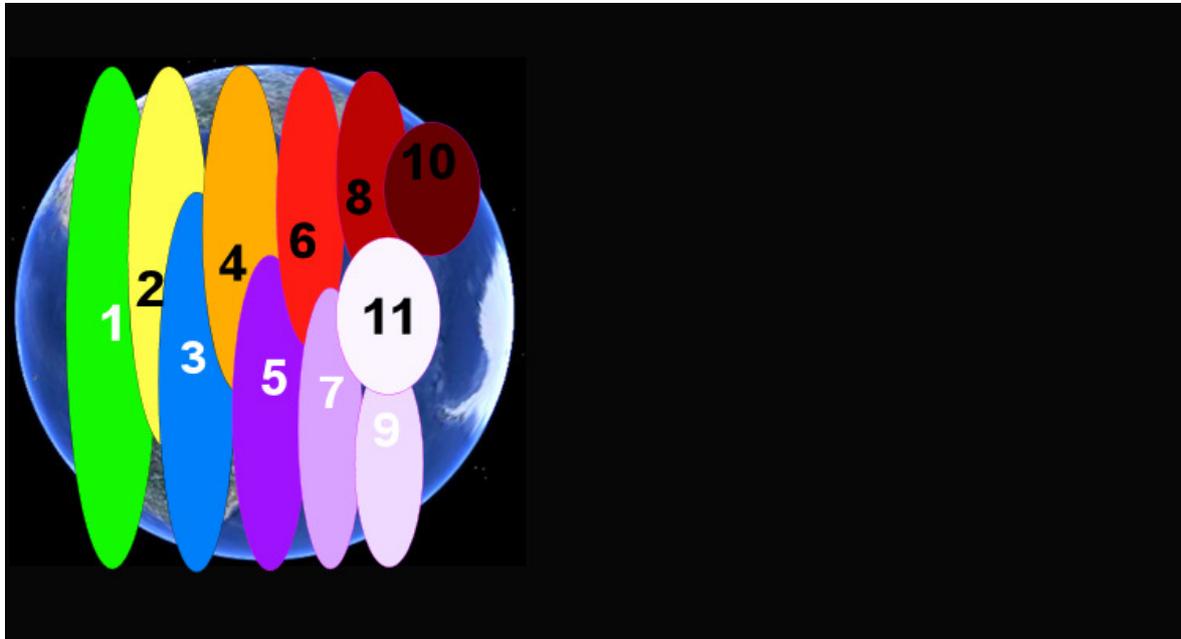

When Chakray 10 connects, the impact is very big because it is a very advanced and highly evolved race. By showing them how balanced we have become, they will understand the importance of the union they have joined. The lessons of the other Chakray are learned by Chakray 10, making them understand the need for Earth to connect with Lemuria.

Especially when Chakray 10 learns the existence of twin souls from the Angels, Chakray 10 realizes that a connection can be made with their own twins through Earth. Chakray 10 will join the balanced state and helps in the search for the next Ray. Chakray 9 will enlarge its influence to keep balance among the rays:

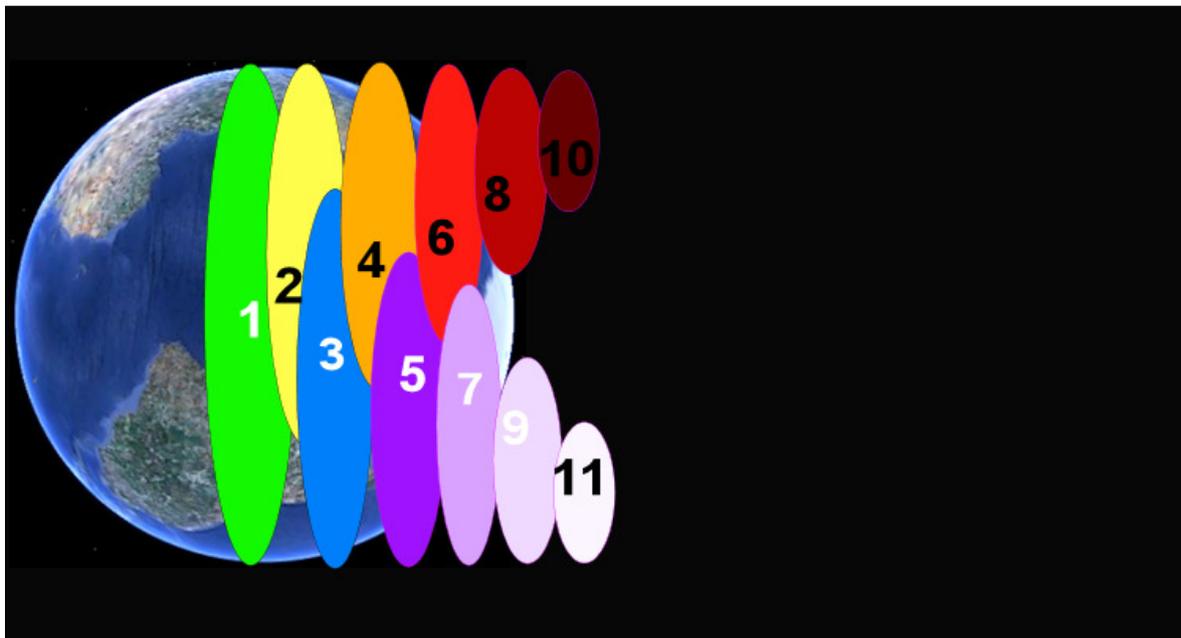

## Earth-Chakray 11: The unknown 2

The search continues and Chakray 11 will connect to Earth. Since Chakray 10 is much alike Chakray 11, a smooth first contact can occur. The lessons learned from the war between Angels and Demons, Pleiadians and Reptoids, allows Chakray 10 to be ready for this connection without destroying the Earth.

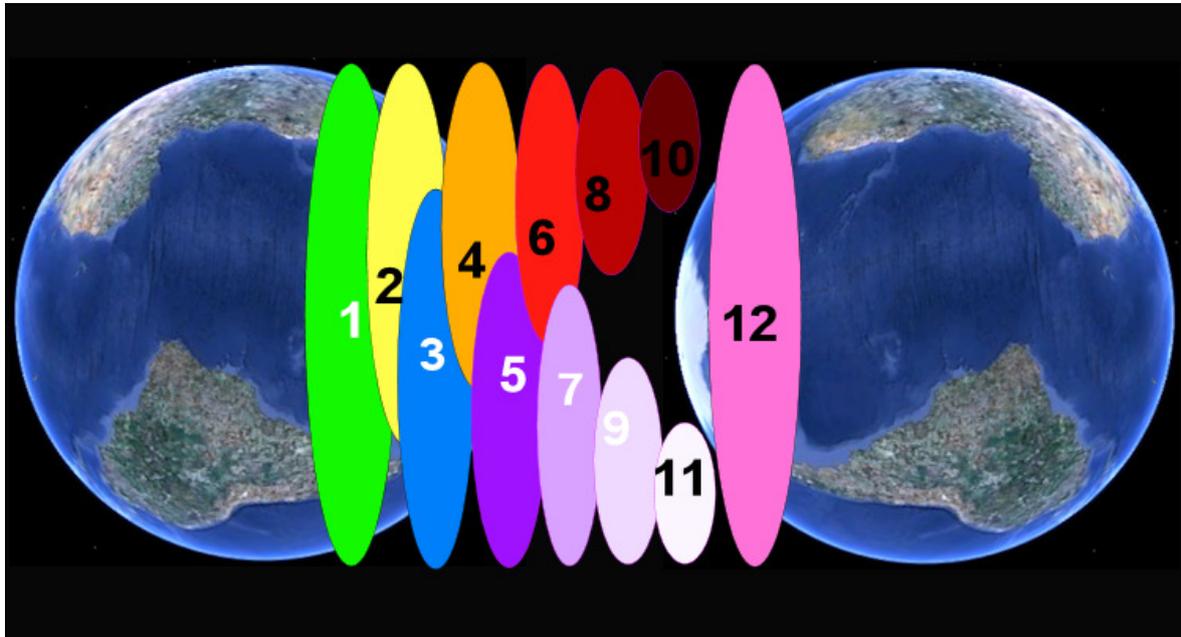

Chakray 11 is balanced and joins the search for Lemuria. To become more powerful, the combined energy is raised, causing a much better alignment on the search. Earth will get a big “antenna” and starts her final search:

## Earth-Chakray 12: Lemuria's twin

The balanced search is successful and other parts of Lemuria are found in the galaxy. A connection is made with all these parts, learning all the experiences that other Lemurian parts have learned.

A true star gate network is formed between all the other Lemurian parts, allowing interstellar travels between them. Parts of the Universe that were out of reach for all the species connected to Earth, are now in reach for all.

## Overview of the Rays

As you might have noticed, the cosmic rays, earth's chakra's and human chakra's are all related. This chapter will give you a quick overview of all the relevant information arranged per ray. There is already a lot of information available about the Flames / Rays on the Internet. The most known Flame is the Violet Flame (Seventh) by Saint Germain.
